

# DRIVEWAY MAINTENANCE CHECKLIST

# MONTHLY MAINTENANCE

- **Clear Debris:** Sweep or blow away debris, dirt, and leaves from the driveway surface.
- **Clean the Surface:** Rinse with water or use a gentle power wash to remove dirt and minor stains.
- **Inspect Edges:** Check for signs of crumbling or separation along the edges.

# SEASONAL MAINTENANCE

- **Repair Cracks:** Inspect the surface for cracks or chips and fill them with crack filler to prevent further damage.
- **Apply Sealant** (if required): Reapply driveway sealant every 2-3 years to protect against water, oils, and UV rays.
- **Weed Control:** Remove weeds from cracks and edges to keep the surface clear and prevent spreading.
- **Winter Prep:** Use a de-icer safe for your driveway material in colder months to avoid surface damage.

# ANNUAL MAINTENANCE

- **Deep Cleaning:** Schedule a deep clean or pressure wash to remove embedded dirt and stains.
- **Joint Maintenance** (for paver driveways): Refill the joints with sand to stabilize the pavers and prevent shifting.
- **Surface Inspection:** Conduct a full inspection of the driveway surface for any larger repairs or re-leveling needs.
- **Sealant Check:** For concrete driveways, reseal if needed to protect against staining and extend its lifespan.

# GET IN TOUCH FOR ALL YOUR PATIO AND LANDSCAPING NEEDS

*Whether you have questions about our patio maintenance tips, need help planning your landscaping, or want a quote for a custom project, we're here to help! Our team at K&K Landscaping is ready to bring your outdoor vision to life with expert services and advice.*
